FINCRIME ESCALATIONS • AML INVESTIGATIONS • TRANSACTION MONITORING

PROFESSIONAL SUMMARY

AML analyst who reviewed 30+ accounts daily on Guidehouse's Green Dot Bank engagement, connecting ACH and P2P activity, customer histories, KYC/CDD, and screening results to documented closure or escalation decisions. Identified emerging patterns and improved triage, contributing to 25% faster reviews and 30% fewer false-positive escalations.

CORE SKILLS

AML and BSA transaction monitoring • FinCrime case escalations • Suspicious activity referral support • Sanctions screening research • Positive-hit investigation support • ACH and P2P payments • Digital fraud and account takeover indicators • KYC/CDD • Risk rationale and investigation summaries • Unit21 • World-Check • Open-source research • Excel and Google Sheets

WORK EXPERIENCE

Santander N.A | Teller and Relationship Banker | Hyannis, MA | May 2026 – Sep 2026

- Protected the accuracy of 40+ daily deposits, withdrawals, transfers, and payments through identity, authorization, and cash-control checks.
- Escalated unusual account behavior and cash exceptions for branch review with transaction details under fraud and BSA procedures.
- Earned 10/10 customer survey ratings while resolving account and digital banking questions within verification and privacy requirements.

Green Dot Bank | AML/BSA Compliance | Analyst 2024 – Sep 2025

- Improved review speed by 25% and reduced false-positive escalations by 30% by identifying recurring alert patterns across 30+ daily account reviews.
- Identified emerging AML patterns by comparing ACH and P2P activity, counterparties, customer histories, and possible account takeover indicators.
- Documented closure or suspicious activity referral decisions in Unit21 by connecting KYC/CDD records, World-Check screening, open-source research, and transaction evidence to case narratives.

Swedbank | AML Compliance Analyst, Transaction Monitoring | May 2023 – May 2024

- Surfaced unusual digital payments for investigation by comparing transaction amounts, frequency, counterparties, and prior account behavior.
- Documented supported alert dispositions by testing risk indicators against KYC records, earlier activity, and relevant customer context.
- Escalated higher-risk cases with transaction timelines, unresolved questions, and clear reasons for fraud or compliance review.

ID Bank | Compliance Operations Specialist | Jan 2022 – May 2023

- Resolved identity discrepancies before onboarding decisions by verifying customer documents, account information, and risk profiles.
- Referred unusual payments and account behavior for fraud or suspicious activity review with specific indicators and supporting evidence.
- Preserved decision context across operations handoffs by recording exceptions, follow-up actions, and outstanding questions.

EDUCATION

Bachelor of Arts in Contemporary Communication | LCC International University, Lithuania | 2024
